

AHTrimble.com CommPlan Info for Cornville, AZ

Before reading any further please read the AHTrimble - Channel Plan document. The document can be found on the private customer website page you were given access to via email after your radio order was shipped.

Detail of your CommPlan -

Channels 27 - 78 are programmed for repeaters in your area and the larger Arizona repeater coverage area. Refer to your Cheat Sheet for detailed information on the location of those repeaters.

Channels 0 and 78 - 85 are available for your programming. I would suggest getting to know your radio and the area before programming the radio with additional channels.
