

# Why is Trump at war with the world...including the United States?

It is easy to get emotional when talking about politics...especially when people are passionately invested in a person or movement. It is hard to be objective and logical, and apply clear thinking when passion is involved. But that is exactly when objectiveness is needed the most...seeing things as they are, not as you wish they are, not as you want them to be, not embracing a false reality.

There are four sections to this article; 1) Facts & Forecasting, 2) Spiritual Advisors, 3) MAGA, 4) Summary. Yeah, I'm not holding back today so buckle up and be ready to look into your very core.

## Let's look at facts:

- The change of the Department of Defense to the Department of War, this is no small detail with little merit. This is a definitive statement about where Trump was headed when he issued his 200<sup>th</sup> Executive Order on September 5<sup>th</sup>, 2025. And words matter! If you look into why it was changed to the Department of Defense in the first place...then you will understand why calling it the Department of War now is so telling and dangerous.
- The Pentagon's civilian mitigation program (Civilian Harm Mitigation and Response program (CHMR)) was terminated by Secretary Pete Hegseth. The program was designed to reduce civilian deaths, injuries, and damage during U.S. military operations. Hegseth, according to Pentagon's own sources says the emphasis was changed to "lethality." Look at what that word means...*more deadly*. But, also look at the fact that Hegseth removed civilian protections...and made it a formal policy for the military to be more deadly. Now it becomes more clear why the US leadership had no problem bombing a girls' elementary school in Iran and killing over 100 young girls.
- In 2025 Trump ordered the bombing of Iran...supposedly to eliminate/destroy/obliterate Iran's nuclear capabilities. His words, the bombing was a "spectacular military success" and Iran's nuclear capabilities were "completely and totally obliterated." Yet, Trump specifically and publicly stated that the primary reason for starting the 2026 Iranian War was to destroy Iran's nuclear weapons capability. So, did he lie in 2025 when he said it was all destroyed, or did he lie when he used it to justify starting a war with Iran?
- Proof of concept / trial run...First came the bombing of civilians (i.e. murder) in speedboats allegedly carrying drugs to the US. However, there was never any legal process involved...none of any kind...just their outright murder. Even when there were survivors floating on debris at sea trying to survive...they were bombed again to ensure they were killed. Then came the bombing, invasion, and kidnapping of Venezuelan President and his wife. Think about that...the US

# Why is Trump at war with the world...including the United States?

attacked a sovereign nation over alleged participation in the drug trade! However, these events were nothing more than a proof of concept or trial run. Would the US public, Congress, and the US legal system tolerate such acts by a US President? Obviously, yes...the United States has lost all sense of morality and respect for the rule of law that we did allow it to happen when it was clearly outside of any bounds of legality or morality. But, it goes deeper than that; Trump showed his hand when he immediately turned over Venezuelan natural resources, specifically oil, to US corporations.

- When did starting the war with Iran begin? Did it start on 28 February 2026? Nope. Did it start on 22 June 2025 when the US bombed Iran for the first time under Trump's second term? Nope. Trumps' war on Iran started in 1987. In a 1987 interview with Barbara Walters on ABC's 20/20, Donald Trump said that the U.S. should seize Iranian oil and should "grab one of their big oil installations [Kharg Island] ... and keep it.". He had is eye on their vast and hugely valuable oil reserves back then...he wanted it, plain and simple...it was all about money...just as Venezuela was. When Trump became President for his second term he didn't have to worry about reelection. When his "proof of concept" worked in Venezuela and no one held him accountable for his bombing of Iran in 2025 Trump was ready to make his move to seize Iran's oil as he dreamed of in 1987. Just this month Trump stated publicly, "My favorite thing is to take the oil in Iran..." and suggested the U.S. could "take" Kharg Island. Clearly Trump's primary interest in starting the war with Iran is their oil...rather, the money that can be made from selling that oil. It's been a plan of his, a long standing dream, for 39 years. And Trump is willing to slaughter a whole country, including young girls and thousands of other civilians, to accomplish that dream.
- On October 8<sup>th</sup> 2023 Israel declared war in revenge for the Hamas attacks of October 7<sup>th</sup>. Their public goal at the time was to strike back at Hamas for the attacks against Israel and to return Israeli hostages. It has since turned into a limited regional war. But clearly it has gone far beyond that. With aid from the United States, Israel is now carrying out large scale massacres of civilians...Muslims and Christians in Gaza, Lebanon, Syria, Iran, Yemen, and Iraq. When Trump went to war with Iran he openly joined Israel in their goal of a "Greater Israel". Meaning "from the Nile to the Euphrates". And remember, there are close business relationships between the Trump family business and Israel.
- Since taking control of the US military Pete Hegseth has removed or pushed out more than 20 senior generals and admirals, fired high-ranking officers including Army Chief of Staff and senior legal officers (Judge Advocate Generals) and fired other top service chiefs. All of those removed, either publicly or privately, didn't pledge loyalty to Trump and his war agenda. Critics call it a "purge", Trump loyalists don't agree. But the fact remains these leaders were forcibly

removed from the military's ranks. One example of *why* in a resignation letter, "I cannot in good conscience support the ongoing war in Iran." And, "Iran posed no imminent threat to our nation..." and it started due to "pressure from Israel and its powerful American lobby."

- Multiple retired generals and military insider whistleblowers are passing on information that there is "reluctance" of military leaders to accept Pentagon orders to attack civilians and civilian infrastructure. Certain commands have turned down some Pentagon target packages due to war crime potential...and *redirected* those orders to actual military targets against Trump Administration demands. There is also "slow-walking" taking place within the military in regards to other orders that are legally questionable.

- Ever wonder what really is up with both Joe Kent and Tulsi Gabbard? Here you go...Both represented an anti-interventionist and anti-war faction inside Trump's national security circle. Both of them opposed the new Middle East wars, advanced that America should avoid regime-change wars, warned that intelligence was incorrect, false, or

intentionally misleading. Interestingly, Gabbard had military credibility, legislative foreign policy experience,

and was one of the more intelligent people in Trump's intelligence circle. Joe Kent was well-qualified for his job with extensive first-hand military and intelligence service experience stretching over decades. Both were Trump

loyalists...until they advocated against war and regime change.

- Starting in December 2026 military draft registration becomes automatic via the federal government data sources. Beginning in 1980 the military draft registration was a "self-registration" process, a successful program. But Trump wanted it changed to an "automatic" process using existing federal databases to register eligible men automatically. Why? Think about this...if a war started and it was needed to draft men into the military and it was still a "self-register" process and large numbers of eligible men objected to the war...refusing to register could seriously reduce the ability for the military to draft men for the war. Now, think about these statistics...70% of young men 18 – 29 disapprove of Trump, 75% of them disapprove of the Iranian War, and even 50% of Trump voters (18 – 29) disapprove of the Iran War. The draft, the *automatic* draft registration, under Trump applies to young men 18 – 26. The new process removes any disruption of draft registration based on conscience. Coincidence?
- In January 2026 Trump stated that the military budget for fiscal year 2027...“not \$1 Trillion Dollars, but rather \$1.5 Trillion Dollars” to build a “dream military.” Think about that specific wording for a minute...a “dream military.” Why? The US already has the most powerful military in the world. Why would Trump want a “dream military? Why use that particular term? What was he thinking, what is he planning?
- On April 9<sup>th</sup>, 2026 Trump posted “Our great military is loading up and resting, looking forward, actually, to its next conquest.” Did you catch that...“next **conquest**”. *Conquest* means taking control of a place, people, or territory by force or overwhelming power. And looking at it from an historical perspective...“conquest” is associated with empires. All other Presidents used

# Why is Trump at war with the world...including the United States?

terms such as defense, deterrence, or response. Words have meaning, Trump telegraphed what he is planning.

Here is where I make it plain...Trump is taking us to war, quite possibly a world war. Well technically, Trump has already taken us to war...the war with Iran. But the Iranian War is a regional war...the middle-east region. From what I can tell...Trump is looking at a much broader and larger war.

Whatever the size and scale, plain as I can be...Trump is taking us to war (in my opinion) from the mountain of facts and clear evidence that I see.

Notice the timing of changes; the automatic draft registration...changed before the mid-term elections and the FY2027 budget increasing the military funding by 50% takes place before the mid-terms. When exactly Trump takes us to war? I have no idea whatsoever. I have my opinion...it is soon...sometime after October 1<sup>st</sup>...maybe before January 3<sup>rd</sup> 2027 when the new Congress is sworn in. That is when I am sure Democrats will take control of the House and the Senate and take action against Trump. I could well be wrong, probably am wrong; I pray that I am wrong. Join me in praying I am wrong, please.

## Spiritual Advisors -

I don't normally talk about specific religions or churches on my website. Actually, I don't think I have ever talked about a religion or church in a way like I am about to. But, there is significant context here and I feel it must be said.

I want to add in a serious word of caution here for the entire country...one that could well be driving this whole Trump/War train wreck.

1 – I looked into Trump's personal spiritual advisor, Paula White-Cain. Many have the opinion, as do I, that she is a con-artist and a snake-oil televangelist impersonating as a pastor. In 2025, Trump appointed her as senior adviser to the newly created White House Faith Office. You should be scared of the kind of crap that Trump is into spiritually...look into Paula White-Cain and what she preaches...and her church. And then consider the immense influence she has over Trump spiritually. She has repeatedly taught that; 1) Christians should bless and stand with Israel, 2) Israel has special biblical significance, 3) support for Israel is spiritually important. She appears to be a staunch Christian Zionist and a supporter of a "greater Israel."

2 – Look into the Christian sect that Pete Hegseth belongs to, Communion of Reformed Evangelical Churches (CREC). Hegseth, who is in command of the entire US military next only to Trump, belongs to this movement/church. And if you look into it...it should scare you to your very core. CREC is

# Why is Trump at war with the world...including the United States?

Christian Nationalism in all the darkest of ways. Look into it...Hegseth is caught up in something that wants to take the political and military power of the United States and embark on a “crusade” to elevate their particular version of Christianity above all. And you will find, should find, that their form of Christianity does not match Christ’s actual teachings. Hegseth’s public rhetoric and church background place him in the camp of a Christian Nationalist and Christian Zionist from everything I have seen.

## MAGA -

First off...there are a lot of decent people in the MAGA movement..I just believe they are confused or don’t understand Trump’s true MAGA movement. On the surface Make America Great Again sounds like a worthy goal for a political or social movement. But, looking below the surface it starts to look a little murky...muddy actually.

Referring to his MAGA supporters On January 23, 2016, during a campaign rally in Sioux Center, Iowa Trump said: *“I could stand in the middle of Fifth Avenue and shoot somebody, and I wouldn’t lose any voters.”* Some think he was joking, he was not; he was dead serious.

Words have meaning...take Trump at his word. He explicitly stated that he could get away with attempted murder and his supporters would stand by him. Here are 8 warning signs:

1. A leader becomes unquestionable - The leader is treated as: uniquely gifted, specially chosen, above normal criticism, questioning him is seen as betrayal.
2. Absolute certainty is demanded - Members are pressured to believe: “We alone have the truth”, Doubt is treated as weakness or moral failure.
3. Outsiders are distrusted - The group teaches that outsiders: cannot understand, are dangerous, and are enemies.
4. Information is tightly controlled - Members may be encouraged to avoid: critical media, former members, and alternative viewpoints.
5. Loyalty is rewarded, dissent punished - People who conform gain approval. Those who question may face: shame, isolation, or exclusion.
6. Identity becomes group-centered - The group becomes more important than: family, previous friendships, and independent judgment.
7. Emotional pressure is strong - Fear, guilt, or urgency are used often: leaving means danger, obedience proves worth.
8. The cause justifies everything - Members may reject adverse facts and statistics because protecting the group becomes morally supreme.

Do the math MAGA! These are the 8 warning signs of a cult.

# Why is Trump at war with the world...including the United States?

Trump Derangement Syndrome (TDS) - political phrase used by Trump supporters to describe what they see as irrational, excessive, or emotionally driven opposition to Donald Trump. A very derogatory slander...intended to be personally insulting, demeaning, and dismissive.

In Saul Alinsky's "Rules for Radicals" he advocates/promotes an idea on how to deal with an opposition group..."Pick the target, freeze it, personalize it, and polarize it." Does that Alinsky process/procedure match up perfectly with MAGA's use of TDS slandering or what? And a reminder...Saul Alinsky's "Rules for Radicals" book was dedicated to Satan.

So how would MAGA folks feel about TWS (Trump Worship Syndrome)? Yeah, Trump can do anything and they love him no matter what. He says anything and it's scripture. He bombs an elementary school and kills over 100 8-year old girls and it was just an "ooppsss" mistake. He talks about wiping out an entire civilization and it was only a negotiation tactic. He tanks a whole country's economy and they think he has done wonderfully with his policies. He talks about his military's next conquest and they cheer. In the eyes of MAGA, Trump can do no wrong...they worship him at his feet.

And even Trump knows that MAGA worships him..."I could stand in the middle of Fifth Avenue and shoot somebody, and I wouldn't lose any voters." (January 23, 2016, during a campaign rally at Dordt University )

So next time you MAGA folks want to ignore reality and cry "TDS!!" ...think about "TWS!!"

## Summary -

Folks we are screwed...and it's getting worse...thanks to Trump. We are stuck in a war we aren't winning and can't win. Our country is going down the drain economically...gas is up 50% locally...families across the country are getting crushed financially. Trump is taking us directly towards another larger war...possibly a world war. The US is causing trillions and trillions of dollars of loss world-wide. The US is committing terrible and horrific war crimes in Iran targeting/killing civilians and civilian infrastructure. The US is supporting Israel in their genocide...and dare I say a holocaust...against Gaza and Lebanon. And the buck stops with the President...Donald J. Trump.

And here is a HUGE danger warning sign...Trump supporters, maybe 10's of millions, treat him as divinely chosen, chosen for a divine purpose, key to God's plan, that "God anointed Trump", and "Trump is chosen for this time". For years many evangelical communities felt they were losing cultural

# Why is Trump at war with the world...including the United States?

influence, and Trump's confrontational style made some feel defended and relevant again. This is a very, very, dangerous red flag. This along with Trump surrounding himself with radical religious Christian Nationalists, Christian Zionists, and fraudulent religious leaders is dangerous to an almost unfathomable degree.

Think about Hegseth's prayer during a recent military operation...in a March 26<sup>th</sup> 2026 Christian worship service inside the Pentagon, one of his monthly evangelical services he has been hosting, Hegseth prayed, "Let every round find its mark... overwhelming violence of action against those who deserve no mercy."

What???? He prays for God's help to kill people and he declares people deserve no mercy???? Does this sound like a Disciple of Christ? How does that square with Christ's teachings that he says he believes in? I could give some ground if vicious fighters were attacking our homes in the USA...but that isn't the case. We started the war and attacked Iran (no threat to the USA) and he is praying for God's help to slaughter the Iranian people!!! My God...what has this country come to that we put

leaders like this in positions of incredible power!?! But what it does...it helps explain the US military killing all those civilians, yes?

I can't even begin to tell you how to prepare for the hell that is already here and the worse hell that this administration will bring down on us. I can urge you to follow the "layering" prepping method outlined [< here >](#) but that isn't enough. I can suggest you learn Situational Awareness [< here >](#). But none of that is enough.

Yes, you should prepare physically and mentally...but that isn't enough. I urge you to prepare spiritually. Because if someone isn't prepared spiritually, if they are not listening for and hearing the Holy Ghost...well, I am not sure they can survive the coming times.

Please think carefully about what is happening in the world today...and what might be knocking on the world's door. Then very carefully consider what you should do to protect yourself and your family from the evil that is here and the evil that is to come...
